## PROFILE

Enthusiastic and detail-oriented Frontend Developer in building and maintaining responsive websites. Proficient in HTML, CSS, JavaScript, and modern frameworks like React. Adept at collaborating with cross-functional teams to deliver high-quality web solutions.

## WORK EXPERIENCE

### Ivey Solutions

Alabama, USA

Full Stack Developer

**2023 - present**

- Developed and maintained responsive websites using Reactjs, Nextjs, Nodejs and GraphQL.
- Collaborated with the design team to implement UI/UX designs.
- Enhanced website performance and loading times through code optimization.
- Integrated RESTful APIs to fetch and display dynamic data.
- Participated in code reviews and provided constructive feedback to peers.

## PROJECTS

### Cash Quiver

Cash Quiver is an intuitive financial platform designed to help users set and achieve their passive income goals through dividend stocks. The platform offers tools for tracking, budgeting, and forecasting financial data, ensuring users can plan for personal prosperity, retirement, or business growth with precision.

### Technologies Used:

- **Frontend:** Nextjs, Tailwind CSS
- **Backend:** GraphQL, ApolloClient
- **Database:** MongoDB
- **Tools & Platforms:** Git, Netlify

## EXTRA-CURRICULAR ACTIVITIES

### Young Leaders

Youth Sport Leaders, British Council  
2009 - 2012

### Ambassador

International Global Network  
August, 2022- December, 2022

### PR Officer

Leo Club of Chittagong  
Cambrian  
2021- 2023

### Key Contributions and Outcomes:

- Developed a responsive and user-friendly interface for a seamless user experience across all devices.
- Implemented portfolio management features for users to add, manage, and track dividend stock investments.
- Designed and developed a budget management module for recording and monitoring expenses.
- Created a comprehensive dashboard to display forecasted financial data, offering a clear view of financial health.
- Integrated secure user authentication for safe registration and login processes.
- Developed a feature for setting and tracking dividend income goals.

### Guardian Pest Protection

Guardian Pest Protection is a comprehensive platform for pest control services, featuring both a user interface and an admin dashboard. The admin dashboard allows for easy updates to pictures, posts, and blogs on the website.

### Technologies Used:

- **Frontend:** Nextjs, Tailwind CSS
- **Backend:** Nextjs
- **Database:** MongoDB
- **Tools & Platforms:** Git, Netlify

### Key Contributions and Outcomes:

- Developed a user-friendly interface and admin dashboard using Next.js.
- Integrated Tailwind CSS for efficient and responsive styling.
- Implemented MongoDB for robust data management.
- Created functionalities for the admin to update pictures and posts on the website.
- Developed a blogging feature to allow admin to post and manage blogs.
- Ensured a seamless and efficient user experience across both the user interface and admin dashboard.
